

Transmission kits
for commercial vehicles

SKF is an international industrial Group operating in some 130 countries and is world leader in bearings.

The company was founded in 1907 following the invention of the self-aligning ball bearing by Sven Wingquist and, after only a few years, SKF began to expand all over the world.

Today, SKF has some 43 000 employees and more than 80 manufacturing facilities spread throughout the world. An international sales network includes a large number of sales companies and some 20 000 distributors and retailers. Worldwide availability of SKF products is supported by a comprehensive technical advisory service.

The key to success has been a consistent emphasis on maintaining the highest quality of its products and services. Continuous investment in research and development has also played a vital role, resulting in many examples of epoch-making innovations.

The business of the Group consists of bearings, seals, special steel and a comprehensive range of other high-tech industrial components. The experience gained in these various fields provides SKF with the essential knowledge and expertise required in order to provide the customers with the most advanced engineering products and efficient service.

SKF transmission kits.

For total quality renovation!

SKF understand the importance of easy access to the products required for truck transmission renovation. Our new concept is custom made for this purpose.

We now offer a complete range of bearings required for renovation of European truck transmissions. All this can be found in our easy-to-read catalogue. You order the bearings you need, directly from one supplier, using new simplified reference numbers.

This saves time for you, time you can spend on more important things.

When you buy SKF transmission kits, you get the best bearings in the market. You probably knew that already. But there is more to it than that.

Looking for
hard-to-find
transmission
bearings for
your rebuild
business?

Try the SKF TensiCheck online – just like the real thing!

What's in it for you?

At the SKF automotive aftermarket website, you can always be sure to get the best, most exclusive information.

- Fast and simple cataloguing online
- Answers to your technical questions
- The latest, exclusive product information
- Try products online – for instance SKF TensiCheck!

And right now, you can earn points for FREE merchandise each time you use Compass, SKF's advanced part search online!

Talk to your SKF representative today or visit www.vsm.skf.com and see what's in it for you.

COMPASS – SKF's advanced part search online will help you find your parts fast and easy!

Main bearing positions- Glossary
